

SUBJECT: NOTICE OF PRIVACY PRACTICES

GOAL: To describe how medical information about you may be used and disclosed and how access to this information may be obtained.

PURPOSE: The District is required by law to maintain the privacy of certain confidential health care information, known as Protected Health Information (PHI), and to provide notice of the legal duties and privacy practices with respect to PHI. This Notice describes your legal rights, advises you of our privacy practices, and lets you know how the District is permitted to use and disclose PHI about you.

SCOPE: All patients treated by District personnel.

PROCEDURE: PLEASE REVIEW THE FOLLOWING CAREFULLY.

The District is required to abide by the terms of the version of this Notice currently in effect. In most situations we may use this information as described in this Notice without your permission, but there are some situations where we may use it only after we obtain your written authorization, if we are required by law to do so.

Uses and Disclosures of PHI

The District may use PHI for the purposes of treatment, and health care operations, in most cases without your written permission.

Examples of our use of your PHI:

For treatment:

This includes such things as verbal and written information that we obtain about you and use pertaining to your medical condition and treatment provided to you by us and other medical personnel (including doctors and nurses who give orders to allow us to provide treatment to you). It also includes information we give to other health care personnel to whom we transfer your care and treatment, and includes transfer of PHI via radio or telephone to the hospital or dispatch center as well as providing the hospital with a copy of the written record we create in the course of providing you with treatment.

For health care operations:

This includes quality assurance activities, licensing, and training programs to ensure that our personnel meet our standards of care and follow established policies and procedures, obtaining legal and financial services, conducting business planning, processing grievances and complaints, creating reports that do not individually identify you for data collection purposes, fundraising, and certain marketing activities.

Use and Disclosure of PHI without Your Authorization

The District is permitted to use PHI *without* your written authorization, or opportunity to object in certain situations, including:

- For the District's use in treating you or in obtaining payment for services provided to you or in other health care operations;
- For the treatment activities of another health care provider;
- To advise another health care provider or entity for the payment activities of the provider or entity that receives the information (such as your hospital or insurance company);
- To advise another health care provider (such as the hospital to which you are transported) regarding health care operation activities of the entity that receives the information as long as the entity receiving the information has or has had a relationship with you and the PHI pertains to that relationship;
- For health care fraud and abuse detection or for activities related to compliance with the law;
- To advise a family member, other relative, or close personal friend or other individual involved in your care if we obtain your verbal agreement to do so or if we give you an opportunity to object to such a disclosure and you do not raise an objection. We may also disclose health information to your family, relatives, or friends if we infer from the circumstances that you would not object. In situations where you are not capable of objecting (because you are not present or due to your incapacity or medical emergency), we may, in our professional judgment, determine that a disclosure to your family member, relative, or friend is in your best interest. In that situation, we will disclose only health information relevant to that person's involvement in your care;
- To advise a public health authority in certain situations (such as reporting a birth, death or disease as required by law, as part of a public health investigation, to report child or adult abuse or neglect or domestic violence, to report adverse events such as product defects, or to notify a person about exposure to a possible communicable disease as required by law);
- For health oversight activities including audits or government investigations, inspections, disciplinary proceedings, and other administrative or judicial actions undertaken by the government (or their contractors) by law to oversee the health care system;
- For judicial and administrative proceedings as required by a court or administrative order, or in some cases in response to a subpoena or other legal process;
- For law enforcement activities in limited situations, such as when there is a warrant for the request, or when the information is needed to locate a suspect or stop a crime;
- For military, national defense and security and other special government functions;
- To avert a serious threat to the health and safety of a person or the public at large;
- For workers' compensation purposes, and in compliance with workers' compensation laws;

- To advise coroners, medical examiners, and funeral directors for the purpose of identifying a deceased person, determining cause of death, or carrying on their duties as authorized by law;
- If you are an organ donor, we may release health information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary to facilitate organ donation and transplantation;
- For research projects, but this will be subject to strict oversight and approvals and health information will be released only when there is a minimal risk to your privacy and adequate safeguards are in place in accordance with the law;
- We may also use or disclose health information about you in a way that does not personally identify you or reveal who you are.

Any other use or disclosure of PHI, other than those listed above will only be made with your written authorization, (the authorization must specifically identify the information we seek to use or disclose, as well as when and how we seek to use or disclose it). **You may revoke your authorization at any time, in writing, except to the extent that we have already used or disclosed medical information in reliance on that authorization.**

As a patient, you have a number of rights with respect to the protection of your PHI, including:

- *The right to access, copy or inspect your PHI.* We will normally provide you with access to this information within 30 days of your request. But if you request a restriction and the information you asked us to restrict is needed to provide you with emergency treatment, then we may use the PHI or disclose the PHI to a health care provider to provide you with emergency treatment. The District is not required to agree to any restrictions you request, but any restrictions agreed upon by the District are binding on the District.
