Commissioner Updates

Commissioner Chunn excused Commissioner Johnson, who is home ill and Commissioner Lester, who was tied up at work.

Commissioner Bartel reported he attended the Ridgefield Junction Neighborhood Association annual meeting. There was much discussion surrounding the continued development in our area. The overpass project is moving forward. He reported he attended the funeral for Jeanette Claiborne (wife of our passed commissioner, Ed Claiborne). Added it was a very nice service.

District Secretary/Chief

Chief Nohr announced and invited all commissioners to attend the Cadet Banquet to be held June 5th at 6:00 PM in the Battle Ground High School Commons. He added Firefighter Dan Ferber does a great job with the cadet program. He stated that the award ceremony recognizing citizens and Firefighter Mat Akers for life saving efforts was well covered by the press. The

recent arson fires we have had have been covered by television and newspaper articles. He stated that CCF&R will begin using Flash Alert, an App that many fire and police agencies are using to get information out quickly to all media sources. Chief Nohr reported we had a fire today in Woodland. Good job done by crews.

OLD BUSINESS

Chief Nohr began a discussion on the sale of the Hayes Road property. Chief Yager reported he has been in contact with Brian Snure regarding the bid process. A legal description is needed. Brian recommends including a minimum bid and the appraisal amount in the bid announcement. The Board agreed with and approved the changes recommended by Snure for the announcement. A completed announcement document will be provided once all the information is gathered.

Chief Nohr reported that the Hillhurst property purchase has gone to the title company. We are waiting to hear when we need to submit payment. There has been a concern brought up regarding event attendees parking on the easement north of the property and now that the property has been mowed, on the building site. Chief Nohr stated he would go out to the property and take a look to determine different options of what can be done to eliminate problems with the parking issue and the ruts left in the ground.
